## DURBAN PORT SITUATION/STORM

Further to our newsflash yesterday the 11<sup>th</sup> October, we would like to inform you of the following developments:

At this stage, the Terminals at Durban Harbour are being evaluated by both TPT (Transnet Port Terminal) personnel as well as an Exterior company to ascertain whether structures are safe. We were advised that Pier 2 Landside Operations will resume at 06h00 this morning, 12 October 2017.

Pier 1 has also commenced Landside Operations but not fully operational as yet. Transporters have been advised to hold back and not to proceed to the terminal until further advised.

It is important to note that the Terminal is still conducting clean-up operations and there are certain areas that are still restricted. This may result in delays. TPT anticipate that clean-up operations may be concluded by 12/10/2017, however further updates will be communicated.

We thank you for your continued support and partnership
