## **UPDATE**

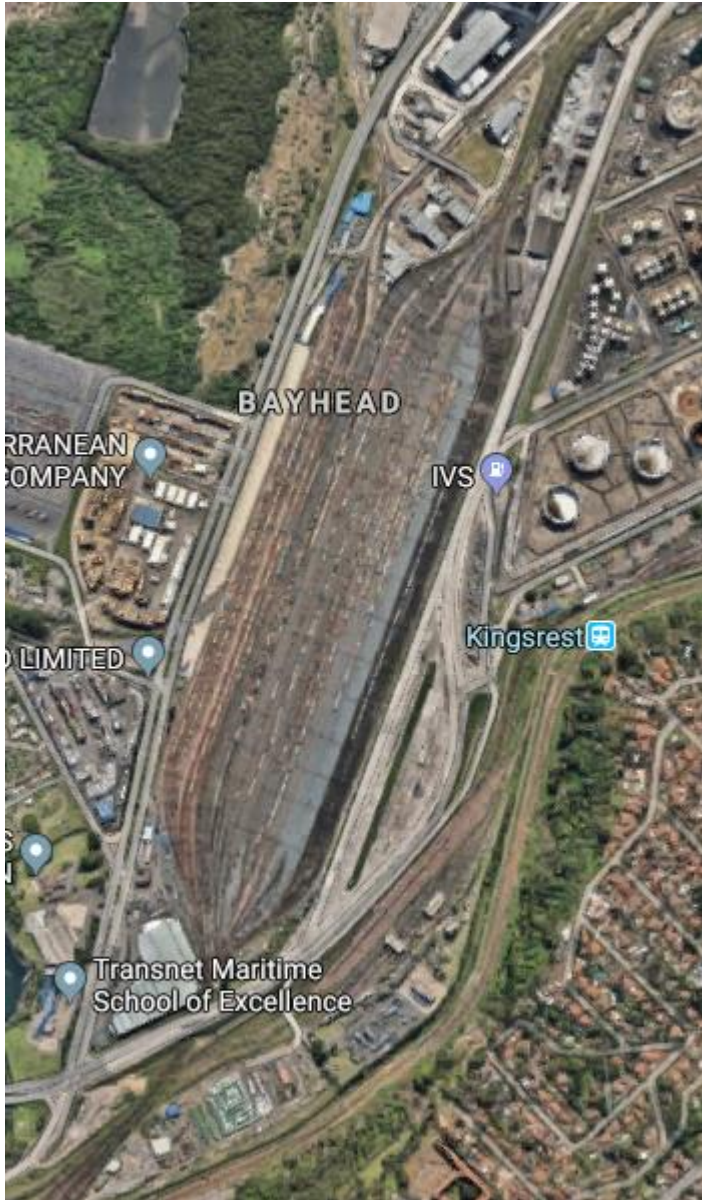

30 October 2019

Further to our earlier communication Transnet have advised that operations have resumed at Pier 1.

Unfortunately, the backlog is severe and the queue outside the port is currently around 10km long. Transnet have requested that truckers not dispatch any trucks to the queue at this time until the backlog has eased.

We are continuing to monitor the situation and will keep you updated accordingly.

For the benefit of clients who have not been to the port, below is a recent satellite image of the staging area in Durban. This is currently full of trucks, in addition to the 10km queue outside the port.

We thank you for your continued support and partnership
