3. Operations in January

Kindly take note that most businesses will begin trading for the year on the 6th of January. Our transporters are on standby to deliver any cargo that has been placed in storage while clients are closed, but we ask clients to please bear in mind that there will be delays and shortages of trucks as they work through the backlog. We are working closely with our transporters to minimise any delays.

4. Incoming Pre-Paid Shipments

A reminder to clients with freight that has been shipped on a pre-paid basis to please advise us of any shipments expected in over the next 2 weeks immediately, particularly if we will be required to arrange storage on your behalf. We are already starting to see space constraints at the depots and as always we endeavour to secure the most cost effective options for our clients.

We would like to take this opportunity to thank all of our clients for their valued support during 2019, and look forward to working together again in 2020.
