29 January 2020

Update: Sea Ports in China closed

In line with previous communications, we are receiving confirmation from various shipping lines that the Ports in China are extending their closures until the 9th of February.

While air flights are still operational we anticipate significant delays in the movement and processing of cargo.

We are in constant communication with our international partners and ask that that you please take the above into account when planning your logistics during this time.

We thank you for your continued support and partnership
